Email

Chaikovskiy.va@mail.ru

Interests

Reading, psychological and developing literature.

Foreign language

English

B1

Viktor Chaikovsky

I have been learning Java for more than three months.

I have already learned followed topics:

- Basic constructions (data types, loops, conditional operations, arrays, classes Math and Random);
- OOP (classes, objects, methods, interfaces and abstract classes, extension, polymorphism, encapsulation);
- Input and output of data (classes Files, Path, InputStream, OutputStream, Reader, Writer, URL, URLConnection);
- Java Date/Time API (LocalDate, LocalTime, LocalDateTime, Instant, ZonedDateTime, DateTimeFormatter);
- Collections(List, Set, Queue, Map);
- Stream;
- Exceptions;
- SQL, MySQL;
- JUnit;
- HTML, CSS;
- Git.

I currently continue to study Java by own on the JavaRush online course, at the moment I have reached the 26th level.

My progress on JavaRush: <https://cloud.mail.ru/public/3Jr1/Qw7fbwfh8>
<https://cloud.mail.ru/public/nYpZ/xHbEuRVjB>

Example of code I wrote:
